**Offices:** New York, NY

Jonathan joined PMT out of law school to pursue a legal career focused on many aspects of the construction industry. His strong interest in construction can be attributed to his exposure of the industry from a young age, as his father owned and operated a general construction business.

Jonathan continued to exercise his knowledge throughout college, performing sitework on commercial development projects and utility repair and installation for public municipalities. His firsthand experience enables him to identify details that may otherwise be overlooked. A background such as his brings a unique edge and perspective to the practice of construction litigation.

Jonathan graduated Magna Cum Laude from Rutgers University in 2021, earning a bachelor's degree in business administration. He would later go on to earn his J.D. from New York Law School, class of 2024.
